

Career and Technology Studies –
COURSE WLD1130: OUTDOOR SURVIVAL SKILLS

Post Immersion

Journal Assessment:

5	4	3	2	1
Clear, insightful, and thorough evidence of understanding is displayed.	Well developed and thoughtful evidence of understanding is provided.	Evidence of understanding is provided in a basic fashion.	Evidence of understanding is limited.	Evidence of understanding is negligible.

Student Learner Outcomes

- 5.1. complete/update a personal inventory
- 5.2 create a connection between a personal inventory and occupational choices

1. What occupations are connected to the topics: “Outdoor Excursions” and “Outdoor Survival Skills”? Create a thoughtful web that explores possible connections. List no less that 20 possible career paths.
2. Are there any occupations that you are interested in? Why?
3. Check out just a few programs from various post-secondary institutions that focus on training people for the outdoor industry! Find one program that you thing is interesting and explain what interests you, how the training matches your values and beliefs and how you’re suited to that type of position.
